

Minami-Azabu 3-chome Site News

In this News, we will inform you of the latest information about Minami Azabu 3-Chome Provisional Nursing Facility site.

Minami Azabu 3-Chome Provisional Nursing Facility will close at the end of March 2024.

It was scheduled to close in March 2025, but as there are no children joining the 4-year-old class due to moving, etc., the facility will close at the end of March 2024, after all students have graduated.

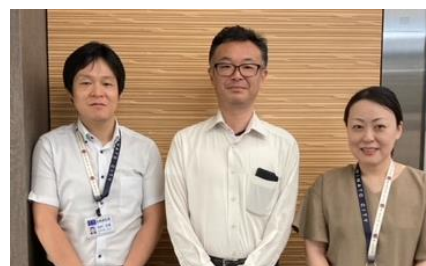

We plan to rebuild a group home where people with disabilities can live, and a facility to take care of both adults and children with disabilities in the same location.

Minami Azabu 3-Chome Provisional Nursing Facility is a 46-year-old building. We decided to rebuild it after considering the ease of living for people with disabilities, safety, cost, etc.

Greetings. We are members of the Welfare Facility Establishment Subsection.
