

# Minami-Azabu 3-chome Site News

In this News, we will inform you of the latest information about Minami Azabu 3-Chome Provisional Nursing Facility site.

## Minami Azabu 3-Chome Provisional Nursing Facility will close March 31, 2024

Since we opened in April 2015, we have received great support from our neighbors and the Azabu-Hommura Neighborhood Association. At the summer festival, children were allowed to ride on the festival car and beat the Japanese drums. Interacting with local community has been a very enjoyable memory for both the children and the staff. Thank you for watching over children warmly.

## Regular childcare services for pre-nursing school children From April 2024 to March 2026

After the Nursing Facility closes, we will be offering regular childcare services for pre-nursing school children starting in April 2024. Children who are not attending nursery school, etc., can regularly use the service, regardless of their parents' employment. This service will be implemented in anticipation of the tentatively named "Childcare Services for Any Child System" currently under consideration by the government.

## Developing a facility for people with disabilities

The group home for people with disabilities that will be constructed on this site is intended to be a facility where residents can live with peace of mind, even if they are becoming increasingly severe, aging, or have lost their parents.

We are currently formulating a "basic concept and basic plan" that will consider the rooms needed for the facility and the basic policy.
