Gas Industry Business Founded Site
The gas industry business in Tokyo started in 1873 (Meiji 6) by former Tokyo Chamber of Commerce, and Tokyo's first gas light was built in Ginza in the following year. It was the third gas industry business in Japan followed by Yokohama and Hyogo.

Kyu-Shibarikyu Onshi Teien (Garden)
It was formally called "Rakuju-en" which was given to Okubo Tadaaki, an executive officer next to Shogun, in 1678 to excuse and walk around the garden to enjoy its beauty. It used to drag and keep the sea water in the pond built in the center of the garden. The best season to enjoy the beauty of wisteria which is about two hundred years old is early May.
