Declaration as a City of Peace

Minato City

August 15, 1985

All people are one in wishing to preserve the beauty of the earth and the permanence of world peace. These sentiments will never change.

We are working to build a community dedicated to the welfare of its citizens, while striving for true peace and the preservation of our cultural traditions.

Our duty to the generations that will follow is to hand over into their keeping a society built on the brotherhood of all people and a natural environment that is flourishing and beautiful.

We request our government to abide firmly by the “three nonnuclear principles” (renouncing possession, production, and introduction of nuclear weapons) and appealing to all citizens everywhere to seek the abolition of nuclear weapons.

As it is our earnest wish for world peace, we hereby declare Minato City to be a City of Peace.

Introducing Traditional Arts and Crafts

Edo Glass

Glass production in *Edo* or nowadays Tokyo, started in the early 18th century by making mirrors, eyeglasses, windchimes, and others. In the early *Meiji* Period from 1868 to 1912, European techniques were introduced and modernized the glass production. Today, glassware products range to numerous products, such as bottles, jars, even thermometers and hydrometers. In the craft shops, various glasses are presented— from European wine glass to ones with the cherry blossom illustration. It may be interesting to see the unique *Edo* glass, which shows the influence of various countries.
