Producer : Mika Arisaka

She moved to the US at the age of fifteen, and after performing in many musicals to hone her stage performance skills, she got a scholarship at the Berklee College of Music. Upon returning to Japan, she performed on many artists' albums and tours. The ending song for a popular anime show "Gundam SEED DESTINY" reached #1 on the Oricon music chart. She released her first album "Aquantum" in 2008. Not only is she the main vocalist for Mika Arisaka & The Sunshowers, but she is also the lead for Jazztronik at the moment, showing her talent in not just the Gospel world, but all across the musical map.
