### ◎ If an abnormality has been discovered in your hepatitis virus examination:

If in a hepatitis virus type C examination, and a result of “currently a high probability of having a hepatitis virus type C infection” has been given, or if in a hepatitis virus type B examination, and a result of “positive” has been given, you will be contacted at a later date by a health nurse of Minato City, by telephone or letter, etc., and provided with a medical recommendation. If there are no abnormalities in your results, you will not be contacted.

The consent of the patient in question is required in relation to the above, so you will be asked by the medical institution giving the examination to place your signature in the question column of the “Minato City Hepatitis Virus Examination Sheet.”
