Nursery Schools

Childcare Facilities Support Subsection,
Nursery School Section ☎ 3578-2445

Nursery schools are operated based on the principle of protecting the best interests of children and ensuring that children grow up healthy, both emotionally and physically. Nursery schools feature integrated childcare and education to provide the most appropriate lifestyle environment for infants. You may use the following facilities if you are unable to take care of your child at home due to work, illness, etc.

■ Available Facilities

Type		Description
Facility	Licensed Nursery Schools	These are nursery facilities that fulfill the establishment criteria set by the national government (size of facility, number of childcare providers, lunch service, disaster prevention management, hygiene management, etc.) and that have been certified by the prefectural governor (since April 2021, the Minato City mayor). These facilities provide integrated childcare and education for children 0-5 years old.
	Licensed Children's Gardens	Facilities that provide education and childcare for children who have not yet enrolled in elementary school. They allow you to keep your child enrolled in the same institution even if your work circumstances change. *Currently, licensed children's gardens (based on a nursery school model) run by Minato City that accept children with No. 1 Certification are not kindergartens certified under the School Education Act.
	Minato City Nursing Facilities	Unlicensed childcare facilities established by Minato City as a measure to combat the current lack of vacancies at nursery schools. Since these facilities are run only by the City, they are unlicensed. However, they use the same enrollment standards/guidelines, charge the same amount, and provide the same kinds of care as licensed nursery schools.
Local Childcare Centers	Small-Scale Childcare Services Employer-Provided Childcare Services Household Childcare Services	Provides Childcare for guardians who are unable to take care of their child at home due to work, etc., while the child is 0-2 years old. *Currently, as of April 2021, Minato City does not offer household childcare services.
	Home Visit Childcare Services	Provides one-on-one childcare at home for children who fulfill the following criteria. • Home-Visit Childcare Services for Children Who Have Been Unable to Enroll in Nursery School Children 0-2 years old who require nursery school services, and whose guardians have applied for two or more nursery schools, but who have not been able to enroll in a licensed nursery school, etc. • Visit-Based Childcare for Children with Disabilities Children 1-5 years old who require nursery school services as well as medical care due to disabilities, illness, etc., and for whom group childcare would be extremely difficult *Contact the relevant City Office for details.

*See the "List of Licensed Nursery Schools, etc., in Minato City" for the addresses, etc., of the facilities.

*If your child has been enrolled in a class for 2-year-olds at a licensed nursery school, etc., until the end of March, and you will continue to require nursery care services beyond April, the City will work to enroll your child in a class for 3-year-olds at another nursery school.

● Full Exemption from Nursery School Fees from Second Child Onward

If your child is a Minato City resident and has an older brother or sister with whom living expenses must be split, they (second child onward) will be fully exempted from their nursery school fees (lunch fees). Note, however, that extended childcare will result in fees even for the second child onward.

Procedures for Enrolling at a Nursery School

 Health and Welfare Subsection, Residents Support Section, Regional City Office (see back cover)

Application forms for enrolling at nursery school are available at the Health and Welfare Subsection in the Residents Support Section of the Regional City Office. The subsection accepts application for nursery school. Please submit all required forms by the deadline for your desired enrollment date. Please see the Minato City Website for information on openings at nursery schools. For parents who wish to enroll their children at nursery school from April, please apply during the period listed in the **Koho Minato** and other publications. Nursery school fees vary depending on resident tax. (For details, please refer to the "Guide to Nursery School Enrollment" which is distributed at the Health and Welfare Subsection in the Residents Support Section of the Regional City Office, and at the Nursery School Section.)

You can also download an application form and the "Guide to Nursery School Enrollment" document from the "Nursery Schools" page of the Minato City official website (QR code to the right).

Procedures for Enrolling at Shibaura Island Children's Garden

 Childcare Facilities Support Subsection, Nursery School Section ☎ 3578-2429

For children receiving No. 2 Certification (childcare certification for children aged 3 and older) and No. 3 Certification (childcare certification for children under 3 years of age), enrollment is determined based on criteria established by Minato City in order of households with a high need for childcare services, while considering usage adjustment (adjustment meetings) in the same way as for licensed nursery schools. The application method is the same as the application method for licensed nursery schools.

Method for determining enrollment in classes for 4- and 5-year olds with No. 1 Certification (Education standard time certification)

Regarding the method used to determine April enrollment in classes for 4-year-olds, if the maximum capacity established for each certification category is exceeded, enrollment is decided via a random draw. After April, for classes for 4- and 5-year-olds, enrollment is decided on a first come, first served basis whenever calls for applications are made.

Note that simultaneous application (application for enrollment in the same month) as No. 2 Certification requiring childcare and No. 1 Certification not requiring childcare is not possible at Shibaura Island Children's Garden.

For details, please contact the Childcare Facilities Support Subsection, Nursery School Section.

Pursuant to the Kindergarten Education Procedure, kindergartens provide a carefully developed educational curriculum designed to equip children with the basics they'll need for life and learning in elementary school and beyond.
